

Instantel was established in 1982, and is a member of Stanley Black & Decker, Inc. Instantel vibration and overpressure monitors have earned their position as the world's most trusted monitor for regulated vibration and overpressure control.

Instantel monitors are used in over 110 countries in various mining, construction, and geotechnical applications.

A worldwide network of qualified Dealers like **Al Bayan Technical Equipment L.L.C** offers Instantel equipment sales and rentals, as well as professional consulting, monitoring and support services, for any project.

The Instantel Micromate[®], a 4-channel unit, is designed to monitor and transmit event data with one triaxial geophone and one air overpressure microphone. Easy-to-use with a touch-screen interface including intuitive menus, color display, and an associated keypad, the Micromate offers a rugged design featuring a high-impact case. Introduce yourself to advanced monitoring technology with a real-time operating system, USB interface, expansive memory, and a variety of plug and play peripherals that provide unequalled versatility across multiple applications.

Instantel Series IV Minimate Pro4[™] and Series IV Minimate Pro6[™] monitors are among the most versatile and capable monitors available. Featuring a rugged design, innovative enhancements, and advanced monitoring technology, the Minimate Pro systems will give you the results you need in a wide variety of applications.

Instantel Blastware[®] software, the Windows[®] software companion to your Instantel seismographs, offers powerful, easy-to-use features, for event management, compliance reporting and advanced data analysis – including Signature Hole Analysis.

Visit [Downloads](#) to view sample reports.

Vision[™] from Instantel is a cloud-based data hosting application for vibration monitoring data that takes the pain out of satisfying even the most demanding reporting requirements. Leave the data management to Vision so that you can get back to doing what you do best-managing your project.

Al Bayan Technical Equipment LLC,

*Room 108, Al Madina Supermarket Building, Latifa Bint Hamdan St., Back side of Al Khail Mall, Al Quoz Industrial 4, Dubai - UAE
Tel. No.: 04 268 9524, Email.albatech@eim.ae.*

Following are few of important Areas of Application

- ▲ Blast Monitor
- ▲ Construction Monitoring
- ▲ Dynamic Compaction
- ▲ Pile driving Monitoring
- ▲ Remote Access Monitoring
- ▲ Tunnel Subway

Monitoring

- ▲ Under Water Monitoring
- ▲ Vibration Dose Monitoring
